Aims and Principles

The Abbey Primary School is built upon the fundamentals of our core values: aspiration, wisdom, courage, respect, compassion, self-respect, justice and responsibility. These values are strongly embedded for children to carry into their future lives. Children are taught to appreciate the uniqueness of their community and the diversity beyond it. We develop our children's understanding of democracy, the rule of law, individual liberty, mutual respect and tolerance to prepare them for their lives as a citizen in the 21st century.

The aim of this policy is to set out the way in which we will support children to behave in a responsible, kind and sociable manner. It applies to all children and all adults in the school. The core aim of our approach is that pupils take growing responsibility for their learning and behaviour. At The Abbey Primary School, we follow a Therapeutic Thinking approach, alongside 'Zones of Regulation'. These are our 3 principles that underpin this behaviour policy:

1. Be ready
2. Be respectful
3. Be safe

Therapeutic Thinking

This policy is based on the current thinking and research that underpins the West Northamptonshire Therapeutic Thinking approach (detailed below). This policy enables the children to work in a safe and secure environment where all children and staff are valued.

It is accepted that a whole school approach focusing on positive emotional wellbeing and behaviour culture requires deliberate creation. Through strong leadership this is designed and detailed through a clear vision and values focusing on realistic social and academic expectations for all.

Behaviour is a form of communication

Approaches to emotional wellbeing and behaviour are viewed in a non-judgmental, curious, and empathetic way. In 2014 the Code of Practice of Special Educational Needs (SEN) replaced the term Behaviour and Social Difficulties (BESD) with Social, Emotional, and Mental Health (SEMH), promoting a shift towards a therapeutic approach to behaviour.

Not all behaviours are a choice

Children with poor emotional wellbeing are regarded as vulnerable rather than troublesome. It is accepted that some behaviours can be driven by a communication need, a perceived outcome, or a biological reaction to overwhelming feelings.

Behaviours can change and improvement can be secured

Expectations of pupil's emotional wellbeing and behaviour are high but realistic and grounded in a belief that change can be affected and improvements secured.

Clear boundaries are paired with an individualised graduated response where needed

A nurturing and structured environment is used to keep children safe. A clear well communicated behaviour policy is used to set standards and create consistency. The policy enables reasonable adjustments for clear well-communicated plans where differentiation from the policy is essential to meet a children's needs including educational, mental health and other needs or vulnerabilities. Where adjustments to the policy are required for vulnerable children, these children will have an individualised behaviour plan.

Children may develop academically and emotionally at different rates

It is accepted that there may be a difference between a child's chronological age, their academic achievement, and their emotional literacy. Children achieving well academically may well still require differentiated planning.

Children and young people are supported to develop internal discipline/self-regulation and resilience

A variety of feedback, reward, or consequence systems are used to develop children as resilient independent learners with positive emotional wellbeing and behaviour.

A commitment to equality and equity

Each child receives resources appropriately differentiated to enable them to access school, learning and social opportunities, equally. The Equalities Act 2010 recognises that some children may need additional support to increase positive emotional wellbeing and support behaviour. Any differentiated resources will be discussed and agreed with the school Special Educational Needs Co-ordinator (SENCo).

A commitment to exclusion reduction

Permanent exclusions are used only as a last resort. There is a clearly defined rationale for exclusion linked to an understanding of vulnerable groups such as those affected by attachment, adverse childhood experience, trauma, mental health, and protected characteristics such as disability or race.

Engagement of families, outside agencies and the wider community is sought when planning support for children

There is proactive engagement with families, outside agencies and the wider community to promote consistent support for children. Parents and carers are key in promoting positive emotional wellbeing. These adults have an informed perspective, and their insights are of value in informing planning and decision-making.

Children's Responsibilities

- To meet the high expectations required of them at all times.
- To work to the best of their abilities and allow others to do the same
- To treat others with respect and kindness
- To co-operate with others
- To follow the instructions of all adults in school
- To take care of property and the environment in and out of school

Staff Responsibilities

- To treat all children fairly and with respect
- To have high expectations for every child
- To raise children's self-esteem and develop their full potential
- To provide a challenging, interesting and relevant curriculum

- To create a safe and engaging environment both physically and emotionally
- To use positive and negative consequences clearly and consistently
- To be a good role model
- To form positive relationships with children and parents/ carers
- To recognise and value that each child is an individual
- To offer a framework for teaching the personal, social and emotional skills and abilities that underpin the school's behaviour policy

Parent/Carer Responsibilities

- To support children to develop awareness of appropriate behaviour in all situations
- To encourage independence and self-discipline
- To show an interest in all that their child does in school
- To foster good relationships with staff at school
- To support the school in the implementation of this policy
- To be aware of the school expectations for behaviour

By choosing The Abbey Primary School for their child, parents and carers support the expectations in our behaviour curriculum and agree with this policy.

Our Behaviour Curriculum

Valued behaviours are explicitly taught and regularly refreshed to ensure all pupils understand the expectations of them. The valued behaviours are underpinned by our 5 school values:

Be all you can be.

Be your best.

Be yourself.

Be thoughtful and fair.

Be caring and kind.

Our PSHE and RSE curriculum teaches children about valued behaviours. These curriculums are enhanced by the 'No Outsiders' and 'Zones of Regulation' resources. This ensures that we have a shared and consistent language of expectations across school.

Our 'no hands up' approach ensures that all children are expected to be engaged with the learning and to take an active part in the lesson. When using a range of strategies to engage children in discussion and questioning, teachers will always know how to approach the different children in their class so that the exchanges are positive and successful for all.

A consistent approach is essential to reinforcing boundaries of acceptable behaviour.

Rewards

To reward children for valued behaviour we have the following in place:

- **Praise**

- House Points- certificates and winning house of term/ year treat
- Reading tokens
- Weekly Bee awards
- Weekly Headteacher’s award
- Weekly Writing awards
- Emails home to parent/ carer
- Attendance awards
- Show work to another class or HT/DHT/ AHT

Detrimental Behaviour

Detrimental behaviour is behaviour that causes harm to an individual, a group, to the community or to the environment. Staff will use the strategies detailed below to encourage valued behaviour, however there will be times when children need additional support to learn about their detrimental behaviour.

Consequences

At The Abbey Primary School, consequences will be derived through logic and naturally follow an action. Children will experience consequences for their detrimental actions. We will use two types of consequences, ‘**Protective**’ and ‘**Educational**’. Both of these create a number of strategies within them to teach valued behaviours to our children, whilst keeping them in a safe learning environment. Certain detrimental behaviour incidents may not require a protective consequence but there must always be an educational consequence. Detailed below is our expected response system for detrimental behaviour.

The Abbey Primary School Behaviour Response System

Detrimental behaviours are outlined below. The level system is for consistency and clarity for adults in school and will not be used in discussion with pupils.

De-Escalation Script

The following steps should be taken in circumstances where a child is demonstrating detrimental behaviour. One adult should lead the interaction, with another observing at a distance so as not to overwhelm the child and to support if required.

1. Use the person's name – ***"Alice..."***
2. Acknowledge their right to their feelings – ***"I can see something is wrong"***
3. Tell them why you are there – ***"I am here to help"***
4. Offer help – ***"Talk to me and I will listen"***
5. Offer a "get-out" (positive phrasing) – ***"Come with me and...."***

Restorative Debrief

Once the child is calm, relaxed and reflective (in the green zone), the experience can be re-visited with an adult.

The adult will re-visit the experience by re-telling and exploring the incident with a changed set of feelings. Use of visual prompts to support the child, if required to support the discussion below.

The adult may ask the child questions to explore the incident:

What happened? (tell the story)

What were people thinking and feeling at the time?

Who has been affected and how?

How can we repair relationships/how can we fix this?

Summarise what we have learnt so we are able to respond differently next time.

Record the outcome of the discussion as an action on **My Concern**.

Physical Intervention Team-Teach

At The Abbey Primary School, some members of staff are trained in Team Teach. This is a programme designed to help staff to calm children and de-escalate difficult situations. It also trains staff to hold children safely if it becomes necessary. This would only be done for safety reasons and for the shortest time possible. Should this occasion arise, children and staff will be given time to reflect and find a different way with difficult situations in the future. Records are kept on My Concern and in the 'Numbered and Bound Book' and parents or carers are informed, as soon as possible.

In cases where it becomes necessary to restrain a child, a Positive Handling Plan will be put in place by the SENCo, parental support will be requested - see Appendix C.

Recording

Each teacher/member of staff will record behaviour incidents on My Concern.

Any meeting, formal or informal, must be recorded on My Concern.

Analysis of behaviour across the school will be carried out by SLT in order to identify and support children and staff.

Legal framework

This policy has been written in line with the relevant legislation and statutory guidance including, but not limited to, the following:

- Education Act 1996
- Education Act 2002
- Equality Act 2010
- Education and Inspections Act 2006
- Health Act 2006

Behaviour Policy Quick Reminders

Gaining Children's Attention

We are a no shouting school

A whole class phrase or signal is used to gain children's attention

The expectation is always that ALL children will stop and listen

Engaging Children in Learning

We are a no hands up school

A range of strategies are used to engage children in the lesson during discussion and questioning

Lessons are well planned and provision for those children with SEND and our higher achievers is well considered

Resources are selected that enable children to fully engage and work as independently as possible
