5. Education and Engagement Approaches

5.1 Education and engagement with learners

- The setting will establish and embed a progressive online safety curriculum to raise awareness and promote safe and responsible internet use amongst learners by:
 - Ensuring education regarding safe and responsible use precedes internet access.
 - Including online safety in Personal, Social, Health and Economic (PSHE), Relationships and Sex Education (RSE) and computing programmes of study. EYFS should follow the EYFS Statutory Guidance and incorporate discussions about online safety when modelling and using a range of technology, as well as taking part in whole school events, such as Safer Internet Day. All KS1 and KS2 year groups should be taught using the Rising Stars Switched On Computing SOW objectives and supporting resources. The Switched On Online Safety SOW should also be taught as additional lessons every short term.
 - Reinforcing online safety messages whenever technology or the internet is in use.
 - Educating learners in the effective use of the internet to research; including the skills of knowledge location, retrieval and evaluation.
 - Teaching learners to be critically aware of the materials they read and shown how to validate information before accepting its accuracy.
- The setting will support learners to read and understand the Acceptable Use policies in a way which suits their age and ability by:
 - Displaying Acceptable Use posters in all rooms with internet access.
 - Informing learners that network and internet use will be monitored for safety and security purposes and in accordance with legislation.

This may include, but is not limited to children in care, children with Special Educational Needs and Disabilities (SEND) or mental health needs, children with English as an additional language (EAL) and children experiencing trauma or loss.
- When implementing an appropriate online safety policy and curriculum The Abbey Primary School will seek input from specialist staff as appropriate, including the SENDCo, to ensure identified children are supported.

5.3 Training and engagement with staff

We will:

- Provide and discuss the online safety policy and procedures with all members of staff as part of induction.
- Provide up-to-date and appropriate online safety training for all staff on a regular basis, with at least annual updates. This will be included as a part of existing safeguarding and child protection training/updates and within separate annual online safety sessions. It will cover the potential risks posed to learners (Content, Contact and Conduct) as well as our professional practice expectations.
- Make staff aware that our IT systems are monitored, and that activity can be traced to individual users; staff will be reminded to behave professionally and in accordance with our policies when accessing our systems and devices.

 - Requiring them to read our Acceptable Use policies and discuss the implications with their children.

6. Reducing Online Risks

- The Abbey Primary School recognises that the internet is a constantly changing environment with new apps, devices, websites and material emerging at a rapid pace.
- We will:
 - Regularly review the methods used to identify, assess and minimise online risks.
 - Examine emerging technologies for educational benefit and undertake appropriate risk assessments before use in the setting is permitted.
 - Ensure that appropriate filtering and monitoring is in place and take all reasonable precautions to ensure that users can only access appropriate material.
 - Recognise that due to the global and connected nature of the internet, it is not possible to guarantee that unsuitable material cannot be accessed via our computers or devices.
- All members of the community are made aware of our expectations regarding safe and appropriate behaviour online and the importance of not posting any content, comments, images or videos which could cause harm, distress or offence

to members of the community. This is clearly outlined in our acceptable use policies and highlighted through a variety of education and training approaches.
